

NEXT GENERATION COACHES COURSE IN SPAIN

Sports coaches are community leaders and guide the future of the children who rely on them. Studies have shown that most football coaches are not trained to be leaders and to interact with athletes to get the best out of them, which can jeopardize the future development of young people.

The exclusive 9 months The Next Generation Sports coaches' course is one of the most advanced of the world. In this course coaches will have a very comprehensible and complete training program where they will learn depth the modern football methodology and they will also be trained to be successful leaders of their community. This learning process will take place in a top notch football environment which will help them have a better understanding of the lessons.
